

PRODUCT FICHE - AIR CONDITIONER

| | |
|--|------------|
| Brand | WHIRLPOOL |
| Commercial code | SPICR 309W |
| Cooling sound power value for IDU | 56 |
| Cooling sound power value for ODU | 62 |
| Heating sound power value for IDU | 56 |
| Heating sound power value for ODU | 62 |
| Refrigerant gas type | R32 |
| Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to 675. This means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be 675 times higher than 1 kg of CO₂, over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional. | 675 |
| SEER cooling | 6.1 |
| Energy class cooling | A++ |
| Energy consumption 149 kWh per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located. | 149 |
| Design load for cooling (kW) | 2.6 |
| SCOP heating average (Green) | 4 |
| Energy class heating | A+ |
| Energy consumption 700 kWh per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located. | 700 |
| Seasonal design load heating average (Green) | 2 |
| Seasonal design load heating colder (Blue) | 0 |
| Seasonal design load heating warmer (Orange) | 2.4 |
| Declared capacity (kW) | 1.7 |
| Back up heating capacity (kW) | 0.3 |
| Energy consumption 0, 0 kWh per 60 minutes, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located. | 0, 0 |
